revvity

Upgrade to NEXTFLEX library prep kits.

RNA-SEQ · SMALL RNA-SEQ · UDI BARCODES

Now is the time to upgrade your library preparation chemistry with a free NEXTFLEX® kit to evaluate.

Robust library preparation is a critical step to obtain successful results in Next-Generation Sequencing (NGS). Revvity provides a complete portfolio of NGS library preparation kits and barcodes designed to increase the flexibility and speed of library prep for customers utilizing Illumina® sequencing platforms. The NEXTFLEX small RNA-seq and rapid directional RNA-seq kits are available for manual use and are also fully automated on Revvity's liquid handlers.

We have focused our attention on improving the enzymatic and automation efficiencies offered by our library prep solutions to cater to our customers' needs for cost-effective solutions to achieve robust sequencing results every time.
